

SITE IMPROVEMENT PLAN (SIP) SITE DATA TABLE

The following templates are provided for use in preparing the Site Data Table required to be included with SIP plan sets. All information listed below in the Site Data Table must be provided, unless not applicable to the project. Any fields not applicable to the project can be listed as “not applicable.”

The Parking Calculation Table should be listed on the same page as the Site Data Table when possible. Any categories listed in the Parking Calculation Table that are not applicable to a project may be removed or can be listed as “not applicable.”
