

CITY OF LONE TREE Water Quality Program

Take care of your pet's messes!

Pet waste can contain bacteria that are carried away in rainwater and snowmelt – ending up in Lone Tree's ponds, streams, and wetlands.

Problem:

- ✓ Health risk to pets and people, especially children
- ✓ Nuisance in the neighborhood
- ✓ Contaminates local wildlife habitats

Help out:

- ✓ Wrap pet waste securely and throw it in the garbage
- ✓ Use a plastic bag or pooper-scooper next time you walk your pet

See www.cityoflonetree.com/muttmitt for a map showing the location of mutt-mitt dispensers around the City

Please contact the City of Lone Tree Stormwater Department at (303) 662-8112, or visit the City web site at www.cityoflonetree.com for additional information on water quality in our community.
